AUTHORITY FOR PUBLISHING SESSION LAWS AND RESOLUTIONS

2.030. Revised Statutes of Missouri, 2016. — Legislative research, printing and binding of laws. — The joint committee on legislative research shall annually collate and index, and may print and bind and/or produce in a web-based electronic format all laws and resolutions passed or adopted by the general assembly and all measures approved by the people since the last publication of the session laws. Any edition of the session laws published pursuant to this section is a part of the official laws and resolutions of the general assembly at which the laws and resolutions were passed.

2.040. Revised Statutes of Missouri, 2016. — Duties of legislative research in printing and binding. — The joint committee on legislative research shall provide copies of all laws, measures and resolutions duly enacted by the general assembly and all amendments to the constitution and all measures approved by the people since the last publication of the session laws pursuant to section 2.030, giving the date of the approval or adoption thereof. The joint committee on legislative research shall headnote, collate, index the laws, resolutions and constitutional amendments, and compare the proof sheets of the printed copies with the original rolls. The revisor of statutes shall insert therein an attestation under the revisor's hand that the revisor has compared the laws, resolutions, constitutional amendments and measures therein contained with the original rolls and copies in the office of the secretary of state and that the same are true copies of such laws, measures, resolutions and constitutional amendments as the same appear in the original rolls in the office of the secretary of state. The joint committee on legislative research shall cause the completed laws, resolutions and constitutional amendments to be printed and bound.

The Joint Committee on Legislative Research is pleased to state that the 2025 Session Laws of Missouri is printed with soy-based ink.

ATTESTATION

I, Matt Morris, Revisor of Statutes, hereby certify that I have collated carefully the laws and resolutions passed by the One Hundred Third General Assembly of the State of Missouri, convened in first regular session (2025), first extraordinary session (2025), and second extraordinary session (2025) as they are contained in the following pages, and have compared them with the original rolls and have corrected them thereby. Headnotes are used for the convenience of the reader and are not part of the laws they precede.

IN TESTIMONY WHEREOF, I have hereunto set my hand at my office in the City of Jefferson this twenty-second day of October A.D. two thousand twenty-five.

MATT MORRIS
REVISOR OF STATUTES

EFFECTIVE DATE OF LAWS

All laws having emergency clauses (and appropriation bills) become effective upon signature by the governor. Bills having a specific effective date contained in the text of the act become effective on that date. This date is shown immediately following the section. All other laws become effective in accordance with the provisions of the Constitution of Missouri.

Section 29, Article III of the Constitution provides:

“No law passed by the general assembly, except an appropriation act, shall take effect until ninety days after the adjournment of the session in either odd-numbered or even-numbered years at which it was enacted. However, in case of an emergency, which must be expressed in the preamble or in the body of the act, the general assembly by a two-thirds vote of the members elected to each house, taken by yeas and nays may otherwise direct; and further except that, if the general assembly recesses for thirty days or more it may prescribe by joint resolution that laws previously passed and not effective shall take effect ninety days from the beginning of the recess.”

Pursuant to Section 20(a), Article III, Constitution of Missouri, as amended in 1988, the regular session of the general assembly ends on May 30th and laws passed at that session become effective August 28th of that year.

Section 21.250, which provides for the effective date of bills reconsidered after the governor’s veto, was amended by the General Assembly in 2003 to add the following language:

“Unless the bill provides otherwise, it shall become effective thirty days after approval by constitutional majorities in both houses of the general assembly.”.

The One Hundred Third General Assembly, First Regular Session, convened Wednesday, January 8, 2025, and adjourned Friday, May 30, 2025. All laws passed by it (other than appropriation acts, those having emergency clauses or different effective dates) became effective ninety days thereafter on August 28, 2025.

The One Hundred Third General Assembly, First Extraordinary Session, convened Monday, June 2, 2025, and adjourned Wednesday, June 11, 2025. The bills passed by it (other than the appropriation act and those with different effective dates) became effective September 9, 2025.

The One Hundred Third General Assembly, Second Extraordinary Session, convened Wednesday, September 3, 2025, and adjourned Friday, September 12, 2025.

JOINT RESOLUTIONS AND INITIATIVE PETITIONS

Section 2(b), Article XII of the Constitution provides:

“All amendments proposed by the general assembly or by the initiative shall be submitted to the electors for their approval or rejection by official ballot title as may be provided by law, on a separate ballot without party designation, at the next general election, or at a special election called by the governor prior thereto, at which he may submit any of the amendments. No such proposed amendment shall contain more than one amended and revised article of this constitution, or one new article which shall not contain more than one subject and matters properly connected therewith. If possible, each proposed amendment shall be published once a week for two consecutive weeks in two newspapers of different political faith in each county, the last publication to be not more than thirty nor less than fifteen days next preceding the election. If there be but one newspaper in any county, publication for four consecutive weeks shall be made. If a majority of the votes cast thereon is in favor of any amendment, the same shall take effect at the end of thirty days after the election. More than one amendment at the same election shall be so submitted as to enable the electors to vote on each amendment separately.”

The One Hundred Third General Assembly, First Regular Session (2025), passed two Joint Resolutions. The One Hundred Third General Assembly, Second Extraordinary Session (2025) passed one Joint Resolution. Resolutions are to be published as provided in Section 116.340, RSMo 2016, which reads:

“116.340. Publication of approved measures. — When a statewide ballot measure is approved by the voters, the secretary of state* shall publish it with the laws enacted by the following session of the general assembly, and the revisor of statutes shall include it in the next edition or supplement of the revised statutes of Missouri. Each of the measures printed above shall include the date of the proclamation or statement of approval under section 116.330.”

*The publication of session laws was delegated to the Joint Committee on Legislative Research in 1997 by Senate Bill 459, section 2.040.

The headnotes used to describe sections printed in this volume may not be identical with the headnotes which appear in the 2025 Revised Statutes of Missouri. Every attempt has been made to develop headnotes which adequately describe the textual material contained in the section.

Appropriates money for the expenses, grants, refunds, and distributions of the State Board of Education and Department of Elementary and Secondary Education

AN ACT to appropriate money for the expenses, grants, refunds, and distributions of the State Board of Education and the Department of Elementary and Secondary Education, and the several divisions and programs thereof, to be expended only as provided in Article IV, Section 28 of the Constitution of Missouri, and to transfer money among certain funds for the period beginning July 1, 2025, and ending June 30, 2026.

Be it enacted by the General Assembly of the state of Missouri, as follows:

There is appropriated out of the State Treasury, to be expended only as provided in Article IV, Section 28 of the Constitution of Missouri, for the purpose of funding each department, division, agency, fund transfer, and program described herein for the item or items stated, and for no other purpose whatsoever, chargeable to the fund designated for the period beginning July 1, 2025, and ending June 30, 2026, as follows:

PART 1

SECTION 2.000. — Each appropriation in this act shall consist of the item or items in each section of Part 1 of this act, for the amount and purpose and from the fund designated in each section of Part 1, as well as all additional clarifications of purpose in Part 2 of this act that make reference by section to said item or items in Part 1. Any clarification of purpose in Part 2 shall state the section or sections in Part 1 to which it attaches and shall, together with the language of said section(s) in Part 1, form the complete statement of purpose of the appropriation. As such, the provisions of Part 2 of this act shall not be severed from Part 1, and if any clarification of purpose in Part 2 is for any reason held to be invalid, such decision shall invalidate all of the appropriations in this act of which said clarification of purpose is a part. Part 3 of this act shall consist of guidance to the Department of Elementary and Secondary Education in implementing the appropriations found in Part 1 and Part 2 of this act. An appropriation may be comprised in whole or in part of a one-time amount, and such one-time amount shall be construed to be a component part of, and not in addition to, the stated appropriation amount. Any amount of an appropriation identified as “one-time” in this act shall not be considered an addition to any ongoing core appropriation(s) in future fiscal periods beyond June 30, 2026. Any amount identified as one-time may, however, be requested in any future fiscal period as a new decision item.

*I hereby veto \$1,829,350, including \$1,815,177 general revenue, for State Board of Education operated school programs' salary increases. In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. A course correction in State finances is not only warranted but will be constitutionally required to achieve a balanced budget in future years and safeguard Missouri's financial security and AAA bond rating moving forward. While these may be worthwhile projects, due to the aforementioned reasons, we must control new spending and cannot prudently justify the following expenditures at this time.

Remaining funding will still provide a 7.5% increase for teachers and 5% increase for administrative staff over FY 2025. This will be in addition to the Governor's recommended time of service pay increase which was already included in the budget.

Personal Service by \$1,815,177 from \$37,440,655 to \$35,625,478 from General Revenue Fund.

Given the State's historic investments in education this year, it is incumbent upon local school districts to prioritize the use of their resources for this type of programming as they deem appropriate and necessary.

This program was previously funded with one-time federal relief funds. It is this Administration's intent to limit any State general revenue pick-ups of programs that were funded with one-time federal relief funds.

In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. A course correction in State finances is not only warranted but will be constitutionally required to achieve a balanced budget in future years and safeguard Missouri's financial security and AAA bond rating moving forward. While this may be a worthwhile project, due to the aforementioned reasons, we must control new spending and cannot prudently justify this expenditure at this time.

The introduction of new programs and services supported by State funding should be limited as much as possible at this time.

This will still provide \$8,000,000 in additional funding.

From \$10,000,000 to \$8,000,000 from General Revenue Fund.

From \$10,000,000 to \$8,000,000 in total for the section.

For a non-profit organization, located in Cape Girardeau and Springfield to provide cost-free education, training and apprenticeships for computer programming.

From \$2,000,000 to \$500,000 from General Revenue Fund.

I hereby veto \$300,000 general revenue for a Pre-Apprenticeship program for entry into construction contractor apprenticeships. The State funded this project last fiscal year with the intention that it was a one-time investment.

For a Pre-Apprenticeship program to assist minorities and women in the preparation for entry into construction contractor sponsored apprenticeship programs.

From \$300,000 to \$0 from General Revenue Fund.

I hereby veto \$400,000 general revenue for a Workforce Pre-Apprenticeship training in Kansas City. This budget contains multiple other areas of funding for similar programs.

This will still provide \$1,600,000 in additional funding.

For a Workforce Pre-Apprenticeship training in Kansas City.

From \$2,000,000 to \$1,600,000 from General Revenue Fund.

I hereby veto \$1,750,000 general revenue for Strategic Workforce Development in Kansas City. In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. A course correction in State finances is not only warranted but will be constitutionally required to achieve a balanced budget in future years and safeguard Missouri's financial security and AAA bond rating moving forward. While this may be a worthwhile project, due to the aforementioned reasons, we must control new spending and cannot prudently justify this expenditure at this time.

This budget contains multiple other areas of funding for similar programs.

*I hereby veto \$469,066 general revenue for a core increase to Missouri Southern State University. In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. A course correction in State finances is not only warranted but will be constitutionally required to achieve a balanced budget in future years and safeguard Missouri's financial security and AAA bond rating moving forward. While this may be a worthwhile project, due to the aforementioned reasons, we must control new spending and cannot prudently justify this expenditure at this time.

For distribution to any political subdivision(s) to offset tax credits awarded by the state of Missouri for property taxes levied on qualified rolling stock

From General Revenue Fund (1101) \$500,000

*I hereby veto \$100,000 general revenue for the Rolling Stock Tax Credit Program. In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. A course correction in State finances is not only warranted but will be constitutionally required to achieve a balanced budget in future years and safeguard Missouri's financial security and AAA bond rating moving forward. While this may be a worthwhile project, due to the aforementioned reasons, we must control new spending and cannot prudently justify this expenditure at this time.

*I hereby veto \$2,000,000 general revenue for the planning, design, construction and improvements of U.S. Highway 63 in Columbia. In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. A course correction in State finances is not only warranted but will be constitutionally required to achieve a balanced budget in future years and safeguard Missouri's financial security and AAA bond rating moving forward. While this may be a worthwhile project, due to the aforementioned reasons, we must control new spending and cannot prudently justify this expenditure at this time.

*I hereby veto \$5,000,000 general revenue for distributing funds to urban, small urban, and rural transportation systems. In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. A course correction in State finances is not only warranted but will be constitutionally required to achieve a balanced budget in future years and safeguard Missouri's financial security and AAA bond rating moving forward. While this may be a worthwhile project, due to the aforementioned reasons, we must control new spending and cannot prudently justify this expenditure at this time.

For the Information Technology Services Division

For modernization of asset management and portfolio management

citizen engagement platform

From General Revenue Fund (1101)	\$4,000,000
--	-------------

*I hereby veto \$4,000,000 general revenue for modernization of asset and portfolio management. In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. A course correction in State finances is not only warranted but will be constitutionally required to achieve a balanced budget in future years and safeguard Missouri's financial security and AAA bond rating moving forward. While this may be a worthwhile project, due to the aforementioned reasons, we must control new spending and cannot prudently justify this expenditure at this time.

Said section is vetoed in its entirety from \$4,000,000 to \$0 from General Revenue Fund.

From \$4,000,000 to \$0 in total for the section.

*I hereby veto \$2,500,000 general revenue for a childcare cost-sharing program. The introduction of new programs and services supported by State funding should be limited as much as possible at this time.

This will still provide \$2,500,000 in additional funding.

In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. A course correction in State finances is not only warranted but will be constitutionally required to achieve a balanced budget in future years and safeguard Missouri's financial security and AAA bond rating moving forward. While this may be a worthwhile project, due to the aforementioned reasons, we must control new spending and cannot prudently justify this expenditure at this time.

For a child care cost-sharing program.
 From \$5,000,000 to \$2,500,000 from General Revenue Fund.

Be it enacted by the General Assembly of the state of Missouri, as follows:

There is appropriated out of the State Treasury, to be expended only as provided in Article IV, Section 28 of the Constitution of Missouri, for the purpose of funding each department, division, agency, fund transfer, and program described herein for the item or items stated, and for no other purpose whatsoever, chargeable to the fund designated for the period beginning July 1, 2025, and ending June 30, 2026, as follows:

PART 1

SECTION 6.000. — Each appropriation in this act shall consist of the item or items in each section of Part 1 of this act, for the amount and purpose and from the fund designated in each section of Part 1, as well as all additional clarifications of purpose in Part 2 of this act that make reference by section to said item or items in Part 1. Any clarification of purpose in Part 2 shall state the section or sections in Part 1 to which it attaches and shall, together with the language of said section(s) in Part 1, form the complete statement of purpose of the appropriation. As such, the provisions of Part 2 of this act shall not be severed from Part 1, and if any clarification of purpose in Part 2 is for any reason held to be invalid, such decision shall invalidate all of the appropriations in this act of which said clarification of purpose is a part. An appropriation may be comprised in whole or in part of a one-time amount, and such one-time amount shall be construed to be a component part of, and not in addition to, the stated appropriation amount. Any amount of an appropriation identified as “one-time” in this act shall not be considered an addition to any ongoing core appropriation(s) in future fiscal periods beyond June 30, 2026. Any amount identified as one-time may, however, be requested in any future fiscal period as a new decision item.

In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. A course correction in State finances is not only warranted but will be constitutionally required to achieve a balanced budget in future years and safeguard Missouri's financial security and AAA bond rating moving forward. While these may be worthwhile projects, due to the aforementioned reasons, we must control new spending and cannot prudently justify the following expenditures at this time.

Prior to COVID-19, such projects would not receive earmarked general revenue funding. Stakeholders should work with the Department of Natural Resources to determine whether this project would qualify for other state programs, including the Clean Water/Drinking Water State Revolving Fund.

The above reasoning applies to the following sections through Section 6.241.

***SECTION 6.351. — To the Department of Natural Resources**

For Missouri State Parks

For the purchase of 1,600 or more contiguous acres in a county with more than twenty-two thousand but fewer than twenty-five thousand inhabitants and with a county seat with more than five hundred but fewer than nine hundred inhabitants, and for the planning, design, and construction of a state park on said land

*I hereby veto \$7,500,000 general revenue for the purchase of 1,600 or more contiguous acres in McDonald County and for the planning, design, and construction of a state park on said land. In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. A course correction in State finances is not only warranted but will be constitutionally required to achieve a balanced budget in future years and safeguard Missouri’s financial security and AAA bond rating moving forward. While this may be a worthwhile project, due to the

aforementioned reasons, we must control new spending and cannot prudently justify this expenditure at this time.

This will still provide \$11,500,000 in additional funding.

From \$15,000,000 to \$7,500,000 from General Revenue Fund.

*I hereby veto \$2,000,000 general revenue for promoting Missouri hardwood forest products and to educate the public on the value and benefit of such products. In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. A course correction in State finances is not only warranted but will be constitutionally required to achieve a balanced budget in future years and safeguard Missouri's financial security and AAA bond rating moving forward. While this may be a worthwhile project, due to the aforementioned reasons, we must control new spending and cannot prudently justify this expenditure at this time.

Appropriates money for the expenses, grants, refunds, and distributions of the Department of Public Safety and the Department of National Guard

AN ACT to appropriate money for the expenses, grants, refunds, and distributions of the Department of Public Safety and Department of National Guard and the several divisions and programs thereof, to be expended only as provided in Article IV, Section 28 of the Constitution of Missouri, and to transfer money among certain funds for the period beginning July 1, 2025, and ending June 30, 2026.

Be it enacted by the General Assembly of the state of Missouri, as follows:

There is appropriated out of the State Treasury, to be expended only as provided in Article IV, Section 28 of the Constitution of Missouri, for the purpose of funding each department, division, agency, fund transfer, and program described herein for the item or items stated, and for no other purpose whatsoever chargeable to the fund designated, for the period beginning July 1, 2025, and ending June 30, 2026, as follows:

PART 1

SECTION 8.000. — Each appropriation in this act shall consist of the item or items in each section of Part 1 of this act, for the amount and purpose and from the fund designated in each section of Part 1, as well as all additional clarifications of purpose in Part 2 of this act that make reference by section to said item or items in Part 1. Any clarification of purpose in Part 2 shall state the section or sections in Part 1 to which it attaches and shall, together with the language of said section(s) in Part 1, form the complete statement of purpose of the appropriation. As such, the provisions of Part 2 of this act shall not be severed from Part 1, and if any clarification of purpose in Part 2 is for any reason held to be invalid, such decision shall invalidate all of the appropriations in this act of which said clarification of purpose is a part. Part 3 of this act shall consist of guidance to the Department of Public Safety in implementing the appropriations found in Part 1 and Part 2 of this act. An appropriation may be comprised in whole or in part of a one-time amount, and such one-time amount shall be construed to be a component part of, and not in addition to, the stated appropriation amount. Any amount of an appropriation identified as “one-time” in this act shall not be considered an addition to any ongoing core appropriation(s) in future fiscal periods beyond June 30, 2026. Any amount identified as one-time may, however, be requested in any future fiscal period as a new decision item.

I also hereby veto the words "commercial," "Missouri Sheriffs, and Missouri Department of Corrections", "a single time", and "; the contracted commercial entity shall house and maintain information necessary to provide automated victim notifications and provide a 24/7 call center for victim support." This language is overly restrictive and may conflict with subsection 650.310.3, RSMo. *I hereby veto \$250,000 general revenue for a minority police officer recruitment and retention program in St. Louis. In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. A course correction in State finances is not only warranted but will be constitutionally required to achieve a balanced budget in future years and safeguard Missouri's financial security and AAA bond rating moving forward. While this may be a worthwhile project, due to the aforementioned reasons, we must control new spending and cannot prudently justify this expenditure at this time.

This will still provide \$250,000 in additional funding.

For a police officer recruitment and retention program.

From \$500,000 to \$250,000 from General Revenue Fund.

I hereby veto \$300,000 general revenue for a cybercrime task force in Jasper County. In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. While this may be a worthwhile project, due to the aforementioned reasons, we must control new spending and cannot prudently justify this expenditure at this time.

This is a local responsibility with minimal statewide impact. Other funding mechanisms should be pursued in lieu of earmarked State funding for this program.

\$2 million is already appropriated for locals through the State Cyber Crime Grant.

For a cybercrime task force in Jasper County.

From \$300,000 to \$0 from General Revenue Fund.

I hereby veto \$200,000 general revenue for a Youth and Police Train the Trainer program. This appropriation directs funds to a specific program. Article III Section 38(a) of the Missouri Constitution prohibits the General Assembly from granting public money to any private person, association or corporation.

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.

For the purpose of funding a Youth and Police Initiative Train the Trainer program.
From \$200,000 to \$0 from General Revenue Fund.

I hereby veto \$500,000 general revenue for a pilot program to study a school safety software program. This budget includes historic funding for public education, totaling over \$4 billion, including half a billion dollars in new funding over the prior fiscal year and a nearly \$377 million increase over the next largest annual increase for this iteration of the formula.

Given the State's historic investments in education this year, it is incumbent upon local school districts to prioritize the use of their resources for this type of programming as they deem appropriate and necessary.

This budget contains multiple other areas of funding for similar programs.

For the purpose of funding a pilot program to provide research, data analysis, and study the potential for automated emergency notifications.
From \$500,000 to \$0 from General Revenue Fund.

I hereby veto \$2,000,000 general revenue for construction and improvements to a regional law enforcement center in Greene County. In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. A course correction in State finances is not only warranted but will be constitutionally required to achieve a balanced budget in future years and safeguard Missouri's financial security and AAA bond rating moving forward. While this may be a worthwhile project, due to the aforementioned reasons, we must control new spending and cannot prudently justify this expenditure at this time.

For construction and improvements to a regional law enforcement center.
From \$4,000,000 to \$2,000,000 from General Revenue Fund.

I hereby veto \$100,000 general revenue for the Raytown Fire Protection District mobile integrated healthcare and community paramedic program. In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. While this may be a worthwhile project, due to the aforementioned reasons, we must control new spending and cannot prudently justify this expenditure at this time.

This funding model is unsustainable as it is funded with one-time funding, but consists of ongoing costs.

For a fire protection district in Raytown to support the operations of the mobile integrated healthcare and community paramedic program.
From \$100,000 to \$0 from General Revenue Fund.

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.

I hereby veto \$1,000,000 general revenue for personnel services for a jail in St. Louis City. This is a local responsibility with minimal statewide impact. Other funding mechanisms should be pursued in lieu of earmarked State funding for this program.

This funding model is unsustainable as it is funded with one-time funding, but consists of ongoing costs.

For personnel services for a jail located in St. Louis City.

From \$1,000,000 to \$0 from General Revenue Fund.

From \$18,466,000 to \$14,116,000 in total for the section.

*I hereby veto \$191,662 general revenue for Highway Patrol vehicle replacement and maintenance costs. In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. A course correction in State finances is not only warranted but will be constitutionally required to achieve a balanced budget in future years and safeguard Missouri's financial security and AAA bond rating moving forward. While this may be a worthwhile project, due to the aforementioned reasons, we must control new spending and cannot prudently justify this expenditure at this time.

This will still provide over \$1.3 million in additional funding.

*I hereby veto \$160,333 general revenue for two new administrative staff within the Department of the National Guard. In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. A course correction in State finances is not only warranted but will be constitutionally required to achieve a balanced budget in future years and safeguard Missouri's financial security and AAA bond rating moving forward. While this may be a worthwhile project, due to the aforementioned reasons, we must control new spending and cannot prudently justify this expenditure at this time.

Appropriates money for the expenses, grants, refunds, and distributions of the Department of Corrections

AN ACT to appropriate money for the expenses, grants, refunds, and distributions of the Department of Corrections, and the several divisions and programs thereof, to be expended only as provided in Article IV, Section 28 of the Constitution of Missouri, and to transfer money among certain funds for the period beginning July 1, 2025, and ending June 30, 2026.

Be it enacted by the General Assembly of the state of Missouri, as follows:

There is appropriated out of the State Treasury, to be expended only as provided in Article IV, Section 28 of the Constitution of Missouri, for the purpose of funding each department, division, agency, fund transfer, and program described herein for the item or items stated, and for no other purpose whatsoever, chargeable to the fund designated for the period beginning July 1, 2025, and ending June 30, 2026, as follows:

SECTION 9.000. — An appropriation may be comprised in whole or in part of a one-time amount, and such one-time amount shall be construed to be a component part of, and not in addition to, the stated appropriation amount. Any amount of an appropriation identified as “one-time” in this act shall not be considered an addition to any ongoing core appropriation(s) in future fiscal periods beyond June 30, 2026. Any amount identified as one-time may, however, be requested in any future fiscal period as a new decision item.

Appropriates money for the expenses, grants, refunds, and distributions of the Department of Mental Health, the Department of Health and Senior Services, and the Missouri Health Facilities Review Committee

AN ACT to appropriate money for the expenses, grants, refunds, and distributions of the Department of Mental Health, the Department of Health and Senior Services, and the several divisions and programs thereof, and the Missouri Health Facilities Review Committee to be expended only as provided in Article IV, Section 28 of the Constitution of Missouri, and to transfer money among certain funds for the period beginning July 1, 2025, and ending June 30, 2026.

Be it enacted by the General Assembly of the state of Missouri, as follows:

There is appropriated out of the State Treasury, to be expended only as provided in Article IV, Section 28 of the Constitution of Missouri for the purpose of funding each department, division, agency, fund transfer, and program described herein, for the item or items stated, and for no other purpose whatsoever, chargeable to the fund designated for the period beginning July 1, 2025, and ending June 30, 2026, as follows:

PART 1

SECTION 10.000. — Each appropriation in this act shall consist of the item or items in each section of Part 1 of this act, for the amount and purpose and from the fund designated in each section of Part 1, as well as all additional clarifications of purpose in Part 2 of this act that make reference by section to said item or items in Part 1. Any clarification of purpose in Part 2 shall state the section or sections in Part 1 to which it attaches and shall, together with the language of said section(s) in Part 1, form the complete statement of purpose of the appropriation. As such, the provisions of Part 2 of this act shall not be severed from Part 1, and if any clarification of purpose in Part 2 is for any reason held to be invalid, such decision shall invalidate all of the appropriations in this act of which said clarification of purpose is a part. Part 3 of this act shall consist of guidance to the Department of Mental Health and the Department of Health and Senior Services in implementing the appropriations found in Part 1 and Part 2 of this act. An appropriation may be comprised in whole or in part of a one-time amount, and such one-time amount shall be construed to be a component part of, and not in addition to, the stated appropriation amount. Any amount of an appropriation identified as “one-time” in this act shall not be considered an addition to any ongoing core appropriation(s) in future fiscal periods beyond June 30, 2026. Any amount identified as one-time may, however, be requested in any future fiscal period as a new decision item.

*I hereby veto \$2,500,000 general revenue for the planning, design, construction, expansion, and operation of a children's behavioral health hospital and outpatient treatment center. In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. A course correction in State finances is not only warranted but will be constitutionally required to achieve a balanced budget in future years and safeguard Missouri's financial security and AAA bond rating moving forward. While this may be a worthwhile project, due to the

I hereby veto \$357,318 general revenue for comprehensive psychiatric services. This program was previously funded with federal grant funding. It is this Administration’s intent to limit any State general revenue pick-ups of programs that were funded with federal grant funding that is ending.

I hereby veto \$3,000,000 general revenue for Compass Health. In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. A course correction in State finances is not only warranted but will be constitutionally required to achieve a balanced budget in future years and safeguard Missouri’s financial security and AAA bond rating moving forward. While this may be a worthwhile project, due to the aforementioned reasons, we must control new spending and cannot prudently justify this expenditure at this time.

The expansion of existing programs and services supported by State funding should be limited as much as possible at this time.

*I hereby veto \$33,442,730, including \$11,764,706 general revenue, for Developmental Disabilities rate increases. In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. A course correction in State finances is not only warranted but will be constitutionally required to achieve a balanced budget in future years and safeguard Missouri's financial security and AAA bond rating moving forward. While this may be a worthwhile project, due to the aforementioned reasons, we must control new spending and cannot prudently justify this expenditure at this time.

No provider rate increases are being considered at this time unless such increase is intended to address parity.

to a lack of availability within an appropriate community placement. *I hereby veto \$3,200,000 general revenue for Developmental Disabilities reimbursement of hospitals. In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. *I hereby veto \$1,870,000 for point-of-care ultrasound technology. In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. A course correction in State finances is not only warranted but will be constitutionally required to achieve a balanced budget in future years and safeguard Missouri's financial security and AAA bond rating moving forward. While this may be a worthwhile project, due to the aforementioned reasons, we must control new spending and cannot prudently justify this expenditure at this time.

*I hereby veto \$60,000 Department of Health and Senior Services Federal Fund for caregiver training and support. The introduction of new programs and services supported by State funding should be limited as much as possible at this time.

In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. A course correction in State finances is not only warranted but will be constitutionally required to achieve a balanced budget in future years and safeguard Missouri's financial security and AAA bond rating moving forward. While this may be a worthwhile project, due to the aforementioned reasons, we must control new spending and cannot prudently justify this expenditure at this time.

For a nonprofit organization in a city with more than four hundred thousand inhabitants and located in more than one county that provides a supportive and engaging environment for senior citizens, offering a variety of activities designed to promote cognitive health, social interaction, and overall well-being

From General Revenue Fund (1101) \$100,000

*I hereby veto \$100,000 general revenue for a program located in Kansas City that provides an engaging environment for senior citizens and offers a variety of activities designed to promote cognitive health, social interaction, and overall well-being. In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. A course correction in State finances is not only warranted but will be constitutionally required to achieve a balanced budget in future years and safeguard Missouri's financial security and AAA bond rating moving forward. While this may be worthwhile project, due to the aforementioned reasons, we must control new spending and cannot prudently justify this expenditure at this time.

This is a local responsibility with minimal statewide impact. Other funding mechanisms should be pursued in lieu of earmarked State funding for this program.

Said section is vetoed in its entirety from \$100,000 to \$0 from General Revenue Fund.

From \$100,000 to \$0 in total for the section.

*I hereby veto \$2,500,000 general revenue for a non-profit organization in St. Louis City that addresses community needs for refugee resettlement including workforce development, job placement, learning the English language, and mental health services. The introduction of new programs and services supported by State funding should be limited as much as possible at this time.

*I hereby veto \$750,000 general revenue for Operation Restart in St. Louis County. In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. A course correction in State finances is not only warranted but will be constitutionally required to achieve a balanced budget in future years and safeguard Missouri's financial security and AAA bond rating moving forward. While this may be worthwhile project, due to the aforementioned reasons, we must control new spending and cannot prudently justify this expenditure at this time.

The State funded this project last fiscal year with the intention that was a one-time investment.

For a not-for-profit organization located in a city not within a county to improve the quality of life of people affected by HIV, illness, and poverty, and to advance their stability and well-being through housing, health, and empowerment services

Total.....	\$500,000

*I hereby veto \$500,000, including \$250,000 general revenue, for Doorways in St. Louis City. In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. A course correction in State finances is not only warranted but will be constitutionally required to achieve a balanced budget in future years and safeguard Missouri's financial security and AAA bond rating moving forward. While this may be worthwhile project, due to the aforementioned reasons, we must control new spending and cannot prudently justify this expenditure at this time.

*I hereby veto \$500,000 general revenue for the Truman Presidential Library and Museum. In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. A course correction in State finances is not only warranted but will be constitutionally required to achieve a balanced budget in future years and safeguard Missouri's financial security and AAA bond rating moving forward. While this may be a worthwhile project, due to the aforementioned reasons, we must control new spending and cannot prudently justify this expenditure at this time.

From \$2,250,000 to \$0 from Missouri Humanities Council Trust Fund.

I hereby veto \$750,000 general revenue for capital improvement projects at the Churchill Museum. In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. A course correction in State finances is not only warranted but will be constitutionally required to achieve a balanced budget in future years and safeguard Missouri's financial security and AAA bond rating moving forward. While this may be a worthwhile project, due to the aforementioned reasons, we must control new spending and cannot prudently justify this expenditure at this time.

For capital improvement projects at a museum that commemorates the life and distinguished career of Sir Winston Churchill.

From \$750,000 to \$0 from General Revenue Fund.

I hereby veto \$250,000 Missouri Humanities Council Trust Fund for the Kansas City Arts Asylum. The Missouri Humanities Council Trust Fund is funded by a transfer from general revenue.

*I hereby veto \$20,826 general revenue to create a Chief Deputy Clerk position in the Western District Court of Appeals. In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. A course correction in State finances is not only warranted but will be constitutionally required to achieve a balanced budget in future years and safeguard Missouri's financial security and AAA bond rating moving forward. While this may be a worthwhile project,

*I hereby veto \$2,978 general revenue for expenses for an additional treatment court commissioner for the 25th Circuit and \$2,978 general revenue for expenses for an additional treatment court commissioner for the 26th Circuit. In the FY 2026 budget approved by the General Assembly, nearly \$775 million, including \$297 million for the foundation formula, in new general revenue spending was added above what was included in our FY 2026 budget recommendation. Additionally, according to fiscal forecasts, the current trajectory of state-level spending and revenues projects a budget shortfall starting in FY 2027. A course correction in State finances is not only warranted but will be constitutionally required to achieve a balanced budget in future years and safeguard Missouri's financial security and AAA bond rating moving forward. While this may be a worthwhile project, due to the aforementioned reasons, we must control new spending and cannot prudently justify this expenditure at this time.

For funding the Circuit Courts.

Expense and Equipment by \$5,956 from \$5,195,634 to \$5,189,678 from General Revenue Fund. From \$130,299,015 to \$125,109,337 in total from General Revenue Fund.

I hereby veto \$550,000 general revenue for renovations or improvements to the Greene County courthouse. 3. The amount of the tax credit claimed shall not exceed the amount of the taxpayer's state tax liability for the tax year that the credit is claimed, and such taxpayer shall not be allowed to claim a tax credit in excess of ~~fifty~~ **one hundred** thousand dollars per tax year. 57.961. MEMBERSHIP IN SYSTEM — MEMBER CONTRIBUTION REQUIRED, PROCEDURE — CERTAIN CITIES AND COUNTIES MAY JOIN, HOW — RULEMAKING AUTHORITY. — 1. On and after the effective date of the establishment of the system, as an incident to his or her employment or continued employment, each person employed as an elected or appointed sheriff of a county shall become a member of the system. Such membership shall continue as long as the person continues to be an employee, or receives or is eligible to receive benefits under the provisions of sections 57.949 to 57.997.

2. Notwithstanding any other provision of law to the contrary, each person who is a member of the system on or after January 1, 2024, shall be required to contribute five percent of the member's pay to the ~~[retirement]~~ system. Such contribution shall be made **by the member of the system** notwithstanding that the minimum salary or wages provided by law for any member shall thereby be changed. Each member shall be deemed to consent and agree to the deduction made and provided for herein. Payment of a member's compensation less such deduction shall be a full and complete discharge and acquittance of all claims and demands whatsoever for services rendered by him or her to a county, except as to benefits provided by this system.

3. **The county employer, pursuant to the provisions of 26 U.S.C. Section 414(h)(2), shall pick up and pay the contributions that would otherwise be payable by the member under this section.** The officer or officers responsible for making up the payrolls for each county shall cause the contribution provided for in this section to be deducted from the compensation of the member in the employ of the county, on each and every payroll, for each and every payroll to the date his or her membership terminates. When deducted, each contribution shall be paid by the county to the system; the payments shall be made in the manner and shall be accompanied by such supporting data as the board shall from time to time prescribe. When paid to the system, each of the contributions shall be credited to the member from whose compensation the contributions were deducted. 4. Member contributions ~~[deducted and paid into the system by the county]~~ **picked up by the employer** shall be paid from the same source of funds used for the payment of pay to a member. A deduction shall be made from each member's pay equal to the amount of the member's contributions picked up by the employer. This deduction, however, shall not reduce the member's pay for purposes of computing benefits under the ~~[retirement]~~ system under this chapter.

5. The contributions, although designated as employee contributions, shall be paid by the county in lieu of the contributions by the member. The member shall not have the option of choosing to receive the contributed amounts directly instead of having them paid by the county to the ~~[retirement]~~ system.

6. A former member who is not vested may request a refund of his or her contributions. Such refund shall be paid by the system after ninety days from the date of termination of employment or the request, whichever is later, and shall include all contributions made to any retirement plan administered by the system.

7. Beginning September 1, 1986, any city not within a county and any county having a charter form of government may elect, by a majority vote of its governing body, to come under the provisions of sections 57.949 to 57.997 ~~[except for the provisions of section 57.955]~~. Notice in writing of such election shall be given to the board, and the person employed as sheriff of such county, as an incident of his contract of employment or continued employment, shall become a member of the system on the first day of the month immediately following the date the board receives notice. Such annuity shall be not less than one thousand dollars per month.

2. The board, at its last meeting of each calendar year, shall determine the monthly amount for medical insurance premiums to be paid to each retired member during the next following calendar year. The monthly amount shall not exceed four hundred fifty dollars. The monthly payments are at the discretion of the board on the advice of the actuary. The anticipated sum of all such payments during the year plus the annual normal cost plus the annual amount to amortize the unfunded actuarial accrued liability in no more than thirty years shall not exceed the anticipated moneys credited to the system pursuant to ~~[sections]~~ **section 57.952** ~~[and 57.955]~~. The money amount granted here shall not be continued to any survivor.

3. If a member with eight or more years of service dies before becoming eligible for retirement, the member's surviving spouse, if he or she has been married to the member for at least two years prior to the member's death, shall be entitled to survivor benefits under option 1 as set forth in section 57.979 as if the member had retired on the date of the member's death. The member's monthly benefit shall be calculated as the member's accrued benefit at his or her death reduced by one-fourth of one percent per month for an early commencement from the member's normal retirement date: age fifty-five with twelve or more years of creditable service or age sixty-two with eight years of creditable service, to the member's date of death. Such benefit shall be payable on the first day of the month following the member's death and shall be payable during the surviving spouse's lifetime.

Notwithstanding the provisions of this subsection and section 67.1541 to the contrary, the county collector may, upon certification by the district for collection, add each special assessment to the annual real estate tax bill for the property and collect the assessment in the same manner the collector uses for real estate taxes. Any special assessment remaining unpaid on the first day of January annually is delinquent and enforcement of collection of the delinquent bill by the county collector shall be governed by the laws concerning delinquent and back taxes. The lien may be foreclosed in the same manner as a tax upon real property by land tax sale under chapter 140 or, if applicable to that county, chapter 141.

6. A separate fund or account shall be created by the district for each special assessment levied and each fund or account shall be identifiable by a suitable title. The proceeds of such assessments shall be credited to such fund or account. Such fund or account shall be used solely to pay the costs incurred in undertaking the specified service or project.

7. Upon completion of the specified service or project or both, the balance remaining in the fund or account established for such specified service or project or both shall be returned or credited against the amount of the original assessment of each parcel of property pro rata based on the method of assessment of such special assessment.

8. Any funds in a fund or account created pursuant to this section which are not needed for current expenditures may be invested by the board in accordance with applicable laws relating to the investment of funds of the city in which the district is located.

9. The authority of the district to levy special assessments shall be independent of the limitations and authorities of the municipality in which it is located; specifically, the provisions of section 88.812 shall not apply to any district.

10. Notwithstanding any provision of law to the contrary, all property owned by an entity that is exempt from taxation under 26 U.S.C. 501(c), as amended, shall be exempt from any special assessment levied by a district under this section so long as the property is used in furtherance of the entity's tax exempt purposes.

67.5050. DEFINITIONS — USE OF CONSTRUCTION MANAGER-AT-RISK METHOD, WHEN — PROCEDURE — DEFAULT, EFFECT OF — INAPPLICABILITY. — 1. As used in this section, the following terms mean:

(1) "Construction manager", the legal entity that proposes to enter into a construction ~~management-at-risk~~ **manager-at-risk** contract under this section;

(2) "Construction manager-at-risk", a sole proprietorship, partnership, corporation, or other legal entity that assumes the risk for the construction, rehabilitation, alteration, or repair of a project at the contracted price as a general contractor and provides consultation to a political subdivision regarding construction during and after the design of the project.

2. Any political subdivision may use the construction manager-at-risk method for: civil works projects such as roads, streets, bridges, utilities, water supply projects, water plants, wastewater plants, water distribution and wastewater conveyance facilities, airport runways and taxiways, storm drainage and flood control projects, or transit projects commonly designed by professional engineers in excess of two million dollars; and noncivil works projects such as buildings, site improvements, and other structures, habitable or not, commonly designed by architects in excess of three million dollars. In using that method and in entering into a contract for the services of a construction manager-at-risk, the political subdivision shall follow the procedures prescribed by this section.

3. The political subdivision shall publicly disclose at a regular meeting its intent to utilize the construction ~~management-at-risk~~ **manager-at-risk** method and its selection criteria at least one week prior to publishing the request for qualifications. Before or concurrently with selecting a construction manager-at-risk, the political subdivision shall select or designate an engineer or architect who shall prepare the construction documents for the project and who shall comply with

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.

all state laws, as applicable. If the engineer or architect is not a full-time employee of the political subdivision, the political subdivision shall select the engineer or architect on the basis of demonstrated competence and qualifications as provided by sections 8.285 to 8.291. The political subdivision's engineer or architect for a project may not serve, alone or in combination with another, as the construction manager-at-risk. This subsection does not prohibit a political subdivision's engineer or architect from providing customary construction phase services under the engineer's or architect's original professional service agreement in accordance with applicable licensing laws.

4. The political subdivision may provide or contract for, independently of the construction manager-at-risk, inspection services, testing of construction materials, engineering, and verification of testing services necessary for acceptance of the project by the political subdivision.

5. The political subdivision shall select the construction manager-at-risk in a two-step process. The political subdivision shall prepare a request for qualifications, for the case of the first step of the two-step process, that includes general information on the project site, project scope, schedule, selection criteria, and the time and place for receipt of proposals or qualifications, as applicable, and other information that may assist the political subdivision in its selection of a construction manager-at-risk. The political subdivision shall state the selection criteria in the request for proposals or qualifications, as applicable. The selection criteria may include the construction manager's experience, past performance, safety record, proposed personnel and methodology, and other appropriate factors that demonstrate the capability of the construction manager-at-risk. The political subdivision shall not request fees or prices in step one. In step two, the political subdivision may request that five or fewer construction managers, selected solely on the basis of qualifications, provide additional information, including the construction manager-at-risk's proposed fee and its price for fulfilling the general conditions. Qualifications shall account for a minimum of forty percent of the evaluation. Cost shall account for a maximum of sixty percent of the evaluation.

6. The political subdivision shall publish the request for proposals or qualifications by publication in a newspaper of general circulation published in the county where the political subdivision is located once a week for two consecutive weeks prior to opening the proposals or qualifications submissions or by a virtual notice procedure that notifies interested parties for at least twenty various purchases, design contracts, construction contracts, or other contracts each year for the political subdivision.

7. For each step, the political subdivision shall receive, publicly open, and read aloud the names of the construction managers. Within forty-five days after the date of opening the proposals or qualification submissions, the political subdivision or its representative shall evaluate and rank each proposal or qualification submission submitted in relation to the criteria set forth in the request for proposals or request for qualifications. The political subdivision shall interview at least two of the top qualified offerors as part of the final selection.

8. The political subdivision or its representative shall select the construction manager that submits the proposal that offers the best value for the political subdivision based on the published selection criteria and on its ranking evaluation. The political subdivision or its representative shall first attempt to negotiate a contract with the selected construction manager. If the political subdivision or its representative is unable to negotiate a satisfactory contract with the selected construction manager, the political subdivision or its representative shall, formally and in writing, end negotiations with that construction manager and proceed to negotiate with the next construction manager in the order of the selection ranking until a contract is reached or negotiations with all ranked construction managers end.

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.

9. A construction manager-at-risk shall publicly advertise, in the manner prescribed by chapter 50, and receive bids or proposals from trade contractors or subcontractors for the performance of all major elements of the work other than the minor work that may be included in the general conditions. A construction manager-at-risk may seek to perform portions of the work itself if the construction manager-at-risk submits its sealed bid or sealed proposal for those portions of the work in the same manner as all other trade contractors or subcontractors. All sealed bids or proposals shall be submitted at the time and location as specified in the advertisement for bids or proposals and shall be publicly opened and the identity of each bidder and their bid amount shall be read aloud. The political subdivision shall have the authority to restrict the construction manager-at-risk from submitting bids to perform portions of the work.

10. The construction manager-at-risk and the political subdivision or its representative shall review all trade contractor, subcontractor, or construction manager-at-risk bids or proposals in a manner that does not disclose the contents of the bid or proposal during the selection process to a person not employed by the construction manager-at-risk, engineer, architect, or political subdivision involved with the project. If the construction manager-at-risk submitted bids or proposals, the political subdivision shall determine if the construction manager-at-risk's bid or proposal offers the best value for the political subdivision. After all proposals have been evaluated and clarified, the award of all subcontracts shall be made public.

11. If the construction manager-at-risk reviews, evaluates, and recommends to the political subdivision a bid or proposal from a trade contractor or subcontractor but the political subdivision requires another bid or proposal to be accepted, the political subdivision shall compensate the construction manager-at-risk by a change in price, time, or guaranteed maximum cost for any additional cost and risk that the construction manager-at-risk may incur because of the political subdivision's requirement that another bid or proposal be accepted.

12. If a selected trade contractor or subcontractor materially defaults in the performance of its work or fails to execute a subcontract after being selected in accordance with this section, the construction manager-at-risk may itself, without advertising, fulfill the contract requirements or select a replacement trade contractor or subcontractor to fulfill the contract requirements. The penal sums of the performance and payment bonds delivered to the political subdivision shall each be in an amount equal to the fixed contract amount or guaranteed maximum price. The construction manager-at-risk shall deliver the bonds not later than the tenth day after the date the fixed contract amount or guaranteed maximum price is established.

13. Any political subdivision engaged in a project under this section, which impacts a railroad regulated by the Federal Railroad Administration, shall consult with the affected railroad on required specifications relating to clearance, safety, insurance, and indemnification to be included in the construction documents for such project.

14. This section shall not apply to:

(1) Any metropolitan sewer district established under Article VI, Section 30(a) of the Constitution of Missouri;

(2) Any special charter city, or any city or county governed by home rule under Article VI, ~~[Section 18]~~ **Sections 18(a) to 18(r)** or 19 of the Constitution of Missouri that has adopted a construction manager-at-risk method via ordinance, rule or regulation.

~~[15. Notwithstanding the provisions of section 23.253 to the contrary, the provisions of this section shall expire September 1, 2026.]~~

(8) "Proposal", an offer in response to a request for proposals by a design-builder to enter into a design-build contract for a design-build project under this section;

(9) "Request for proposal", the document by which the political subdivision solicits proposals for a design-build contract;

(10) "Stipend", an amount paid to the unsuccessful but responsive, short-listed design-builders to defray the cost of participating in phase II of the selection process described in this section.

2. In using a design-build contract, the political subdivision shall determine the scope and level of detail required to permit qualified persons to submit proposals in accordance with the request for proposals given the nature of the project.

3. A design criteria consultant shall be employed or retained by the political subdivision to assist in preparation of the design criteria package and request for proposal, perform periodic site visits to observe adherence to the design criteria, prepare progress reports, review and approve progress and final pay applications of the design-builder, review shop drawings and submissions, provide input in disputes, help interpret the construction documents, perform inspections upon substantial and final completion, assist in warranty inspections, and provide any other professional service assisting with the project administration. The design criteria consultant may also evaluate construction as to the adherence of the design criteria. The consultant shall be selected and its contract negotiated in compliance with sections 8.285 to 8.291 unless the consultant is a direct employee of the political subdivision.

4. The political subdivision shall publicly disclose at a regular meeting its intent to utilize the design-build method and its project design criteria at least one week prior to publishing the request for proposals. Notice of requests for proposals shall be advertised by publication in a newspaper of general circulation published in the county where the political subdivision is located once a week for two consecutive weeks prior to opening the proposals, or by a virtual notice procedure that notifies interested parties for at least twenty various purchases, design contracts, construction contracts, or other contracts each year for the political subdivision. The political subdivision shall publish a notice of a request for proposal with a description of the project, the procedures for submission, and the selection criteria to be used.

5. The political subdivision shall establish in the request for proposal a time, place, and other specific instructions for the receipt of proposals. Proposals not submitted in strict accordance with the instructions shall be subject to rejection.

6. A request for proposal shall be prepared for each design-build contract containing at minimum the following elements:

(1) The procedures to be followed for submitting proposals, the criteria for evaluating proposals and their relative weight, and the procedures for making awards;

(2) The proposed terms and conditions for the design-build contract, if available;

(3) The design criteria package;

(4) A description of the drawings, specifications, or other information to be submitted with the proposal, with guidance as to the form and level of completeness of the drawings, specifications, or other information that will be acceptable;

(5) A schedule for planned commencement and completion of the design-build contract, if any;

(6) Budget limits for the design-build contract, if any;

(7) Requirements including any available ratings for performance bonds, payment bonds, and insurance, if any;

(9) Any other information that the political subdivision in its discretion chooses to supply including, but not limited to, surveys, soil reports, drawings of existing structures, environmental studies, photographs, references to public records, or affirmative action and minority business enterprise requirements consistent with state and federal law.

7. The political subdivision shall solicit proposals in a three-stage process. Phase I shall be the solicitation of qualifications of the design-build team. Phase II shall be the solicitation of a technical proposal including conceptual design for the project. Phase III shall be the proposal of the construction cost.

8. The political subdivision shall review the submissions of the proposals and assign points to each proposal in accordance with this section and as set out in the instructions of the request for proposal.

9. Phase I shall require all design-builders to submit a statement of qualification that shall include, but not be limited to:

- (1) Demonstrated ability to perform projects comparable in design, scope, and complexity;
- (2) References of owners for whom design-build projects, construction projects, or design projects have been performed;
- (3) Qualifications of personnel who will manage the design and construction aspects of the project; and
- (4) The names and qualifications of the primary design consultants and the primary trade contractors with whom the design-builder proposes to subcontract or joint venture. The design-builder ~~may~~ **shall** not replace an identified contractor, subcontractor, design consultant, or subconsultant without the written approval of the political subdivision.

10. The political subdivision shall evaluate the qualifications of all the design-builders who submitted proposals in accordance with the instructions of the request for proposal. Architectural and engineering services on the project shall be evaluated in accordance with the requirements of sections 8.285 and 8.291. Qualified design-builders selected by the evaluation team may proceed to phase II of the selection process. Design-builders lacking the necessary qualifications to perform the work shall be disqualified and shall not proceed to phase II of the process. This process of short listing shall narrow the number of qualified design-builders to not more than five nor fewer than two. Under no circumstances shall price or fees be a part of the prequalification criteria. Design-builders may be interviewed in either phase I or phase II of the process. Points assigned in phase I of the evaluation process shall not carry forward to phase II of the process. All qualified design-builders shall be ranked on points given in phases II and III only.

11. The political subdivision shall have discretion to disqualify any design-builder who, in the political subdivision's opinion, lacks the minimum qualifications required to perform the work.

12. Once a sufficient number of no more than five and no fewer than two qualified design-builders have been selected, the design-builders shall have a specified amount of time in which to assemble phase II and phase III proposals.

13. Phase II of the process shall be conducted as follows:

- (1) The political subdivision shall invite the top qualified design-builders to participate in phase II of the process;
- (2) A design-builder shall submit its design for the project to the level of detail required in the request for proposal. The design proposal shall demonstrate compliance with the requirements set out in the request for proposal;
- (3) The ability of the design-builder to meet the schedule for completing a project as specified by the political subdivision may be considered as an element of evaluation in phase II;

(4) Up to twenty percent of the points awarded to each design-builder in phase II may be based on each design-builder's qualifications and ability to design, contract, and deliver the project on time and within the budget of the political subdivision;

(5) Under no circumstances shall the design proposal contain any reference to the cost of the proposal; and

(6) The submitted designs shall be evaluated and assigned points in accordance with the requirements of the request for proposal. Phase II shall account for not less than forty percent of the total point score as specified in the request for proposal.

14. Phase III shall be conducted as follows:

(1) The phase III proposal shall provide a firm, fixed cost of design and construction. The proposal shall be accompanied by bid security and any other items, such as statements of minority participation as required by the request for proposal;

(2) Cost proposals shall be submitted in accordance with the instructions of the request for proposal. The political subdivision shall reject any proposal that is not submitted on time. Phase III shall account for not less than forty percent of the total point score as specified in the request for proposal;

(3) Proposals for phase II and phase III shall be submitted concurrently at the time and place specified in the request for proposal, but in separate envelopes or other means of submission. The phase III cost proposals shall be opened only after the phase II design proposals have been evaluated and assigned points, ranked in order, and posted;

(4) Cost proposals shall be opened and read aloud at the time and place specified in the request for proposal. At the same time and place, the evaluation team shall make public its scoring of phase II. Cost proposals shall be evaluated in accordance with the requirements of the request for proposal. In evaluating the cost proposals, the lowest responsive bidder shall be awarded the total number of points assigned to be awarded in phase III. For all other bidders, cost points shall be calculated by reducing the maximum points available in phase III by at least one percent for each percentage point by which the bidder exceeds the lowest bid and the points assigned shall be added to the points assigned for phase II for each design-builder;

(5) If the political subdivision determines that it is not in the best interest of the political subdivision to proceed with the project pursuant to the proposal offered by the design-builder with the highest total number of points, the political subdivision shall reject all proposals. In this event, all qualified and responsive design-builders with lower point totals shall receive a stipend and the responsive design-builder with the highest total number of points shall receive an amount equal to two times the stipend. If the political subdivision decides to award the project, the responsive design-builder with the highest number of points shall be awarded the contract; and

(6) If all proposals are rejected, the political subdivision may solicit new proposals using different design criteria, budget constraints, or qualifications.

15. As an inducement to qualified design-builders, the political subdivision shall pay a reasonable stipend, the amount of which shall be established in the request for proposal, to each prequalified design-builder whose proposal is responsive but not accepted. Such stipend shall be no less than one-half of one percent of the total project budget. Upon payment of the stipend to any unsuccessful design-builder, the political subdivision shall acquire a nonexclusive right to use the design submitted by the design-builder, and the design-builder shall have no further liability for the use of the design by the political subdivision in any manner. If the design-builder desires to retain all rights and interest in the design proposed, the design-builder shall forfeit the stipend.

16. (1) As used in this subsection, "wastewater or water contract" means any design-build contract that involves the provision of engineering and construction services either directly by a

(3) In disbursing community development block grants under 42 U.S.C. Sections 5301 to 5321, the department of economic development shall not reject wastewater or water projects solely for utilizing wastewater or water contracts.

(4) The department of natural resources shall not preclude wastewater or water contracts from consideration for funding provided by the water and wastewater loan fund under section 644.122.

(5) A political subdivision planning a wastewater or water design-build project shall retain an engineer duly licensed in this state to assist in preparing any necessary documents and specifications and evaluations of design-build proposals.

17. The payment bond requirements of section 107.170 shall apply to the design-build project. All persons furnishing design services shall be deemed to be covered by the payment bond the same as any person furnishing labor and materials. The performance bond for the design-builder shall not cover any damages of the type specified to be covered by the professional liability insurance established by the political subdivision in the request for proposals.

18. Any person or firm performing architectural, engineering, landscape architecture, or land-surveying services for the design-builder on the design-build project shall be duly licensed or authorized in this state to provide such services as required by chapter 327.

19. Any political subdivision engaged in a project under this section which impacts a railroad regulated by the Federal Railroad Administration shall consult with the affected railroad on required specifications relating to clearance, safety, insurance, and indemnification to be included in the construction documents for such project.

20. Under section 327.465, any design-builder that enters into a design-build contract with a political subdivision is exempt from the requirement that such person or entity hold a license or that such corporation hold a certificate of authority if the architectural, engineering, or land-surveying services to be performed under the design-build contract are performed through subcontracts or joint ventures with properly licensed or authorized persons or entities, and not performed by the design-builder or its own employees.

21. This section shall not apply to:

(1) Any metropolitan sewer district established under Article VI, Section 30(a) of the Constitution of Missouri; or

(2) Any special charter city, or any city or county governed by home rule under Article VI, ~~[Section 18]~~ **Sections 18(a) to 18(r)** or 19 of the Constitution of Missouri that has adopted a design-build process via ordinance, rule, or regulation.

~~[22. The authority to use design-build and design-build contracts provided under this section shall expire September 1, 2026.]~~

6. The state auditor shall prepare sample forms for financial reports and shall mail the same to the political subdivisions of the state. Failure of the auditor to supply such forms shall not in any way excuse any person from the performance of any duty imposed by this section.

7. All reports or financial statements hereinabove mentioned shall be considered to be public records.

8. The provisions of this section apply to the board of directors of every transportation development district organized under sections 238.200 to 238.275.

9. Any political subdivision that fails to timely submit a copy of the annual financial statement to the state auditor shall be subject to a fine of five hundred dollars per day.

10. The state auditor shall report any violation of subsection 9 of this section to the department of revenue. Upon notification from the state auditor's office that a political subdivision failed to timely submit a copy of the annual financial statement, the department of revenue shall notify such political subdivision by certified mail that the statement has not been received. Such notice shall clearly set forth the following:

- (1) The name of the political subdivision;
- (2) That the political subdivision shall be subject to a fine of five hundred dollars per day if the political subdivision does not submit a copy of the annual financial statement to the state auditor's office within thirty days from the postmarked date stamped on the certified mail envelope;
- (3) That the fine will be enforced and collected as provided under subsection 11 of this section; and
- (4) That the fine will begin accruing on the thirty-first day from the postmarked date stamped on the certified mail envelope and will continue to accrue until the state auditor's office receives a copy of the financial statement.

In the event a copy of the annual financial statement is received within such thirty-day period, no fine shall accrue or be imposed. The state auditor shall report receipt of the financial statement to the department of revenue within ten business days. Failure of the political subdivision to submit

the required annual financial statement within such thirty-day period shall cause the fine to be collected as provided under subsection 11 of this section.

11. The department of revenue may collect the fine authorized under the provisions of subsection 9 of this section by offsetting any sales or use tax distributions due to the political subdivision. The director of revenue shall retain two percent for the cost of such collection. The remaining revenues collected from such violations shall be distributed annually to the schools of the county in the same manner that proceeds for all penalties, forfeitures, and fines collected for any breach of the penal laws of the state are distributed.

12. (1) Any ~~transportation development district organized under sections 238.200 to 238.275 having~~ **political subdivision that has** gross revenues of less than five thousand dollars **or that has not levied or collected sales or use taxes** in the fiscal year for which the annual financial statement was not timely filed shall not be subject to the fine authorized in this section.

(2) **Notwithstanding any provision of law to the contrary, no political subdivision with fewer than five hundred inhabitants shall be subject to the fine authorized in this section, and any fine or fines previously assessed to such political subdivision but not paid in full shall be deemed void. A political subdivision subject to this subdivision shall timely file the annual financial statement under this section.**

13. If a failure to timely submit the annual financial statement is the result of fraud or other illegal conduct by an employee or officer of the political subdivision, the political subdivision shall not be subject to a fine authorized under this section if the statement is filed within thirty days of the discovery of the fraud or illegal conduct. If a fine is assessed and paid prior to the filing of the statement, the department of revenue shall refund the fine upon notification from the political subdivision.

14. If a political subdivision has an outstanding balance for fines or penalties at the time it files its first annual financial statement after August 28, 2025, the director of revenue shall make a one-time downward adjustment to such outstanding balance in an amount that reduces the outstanding balance by no less than ninety percent.

15. The director of revenue shall have the authority to make a one-time downward adjustment to any outstanding penalty imposed under this section on a political subdivision if the director determines the fine is uncollectable. The director of revenue may prescribe rules and regulations necessary to carry out the provisions of this subsection. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2025, shall be invalid and void.

All other laws to the contrary notwithstanding, the assessor or the assessor's deputies in all counties of this state including the City of St. Louis shall annually make a list of all real and tangible personal property taxable in the assessor's city, county, town or district. Except as otherwise provided in subsection 3 of this section and section 137.078, the assessor shall annually assess all personal property at thirty-three and one-third percent of its true value in money as of January first of each calendar year. The assessor shall annually assess all real property, including any new construction and improvements to real property, and possessory interests in real property at the percent of its true value in money set in subsection 5 of this section. The true value in money of any possessory interest in real property in subclass (3), where such real property is on or lies within the ultimate airport boundary as shown by a federal airport layout plan, as defined by 14 CFR 151.5, of a commercial airport having a FAR Part 139 certification and owned by a political subdivision, shall be the otherwise applicable true value in money of any such possessory interest in real property, less the total dollar amount of costs paid by a party, other than the political subdivision, towards any new construction or improvements on such real property completed after January 1, 2008, and which are included in the above-mentioned possessory interest, regardless of the year in which such costs were incurred or whether such costs were considered in any prior year. The assessor shall annually assess all real property in the following manner: new assessed values shall be determined as of January first of each odd-numbered year and shall be entered in the assessor's books; those same assessed values

shall apply in the following even-numbered year, except for new construction and property improvements which shall be valued as though they had been completed as of January first of the preceding odd-numbered year. The assessor may call at the office, place of doing business, or residence of each person required by this chapter to list property, and require the person to make a correct statement of all taxable tangible personal property owned by the person or under his or her care, charge or management, taxable in the county. On or before January first of each even-numbered year, the assessor shall prepare and submit a two-year assessment maintenance plan to the county governing body and the state tax commission for their respective approval or modification. The county governing body shall approve and forward such plan or its alternative to the plan to the state tax commission by February first. If the county governing body fails to forward the plan or its alternative to the plan to the state tax commission by February first, the assessor's plan shall be considered approved by the county governing body. If the state tax commission fails to approve a plan and if the state tax commission and the assessor and the governing body of the county involved are unable to resolve the differences, in order to receive state cost-share funds outlined in section 137.750, the county or the assessor shall petition the administrative hearing commission, by May first, to decide all matters in dispute regarding the assessment maintenance plan. Upon agreement of the parties, the matter may be stayed while the parties proceed with mediation or arbitration upon terms agreed to by the parties. The final decision of the administrative hearing commission shall be subject to judicial review in the circuit court of the county involved. In the event a valuation of subclass (1) real property within any county with a charter form of government, or within a city not within a county, is made by a computer, computer-assisted method or a computer program, the burden of proof, supported by clear, convincing and cogent evidence to sustain such valuation, shall be on the assessor at any hearing or appeal. In any such county, unless the assessor proves otherwise, there shall be a presumption that the assessment was made by a computer, computer-assisted method or a computer program. Such evidence shall include, but shall not be limited to, the following:

- (1) The findings of the assessor based on an appraisal of the property by generally accepted appraisal techniques; and
- (2) The purchase prices from sales of at least three comparable properties and the address or location thereof. As used in this subdivision, the word "comparable" means that:
 - (a) Such sale was closed at a date relevant to the property valuation; and
 - (b) Such properties are not more than one mile from the site of the disputed property, except where no similar properties exist within one mile of the disputed property, the nearest comparable property shall be used. Such property shall be within five hundred square feet in size of the disputed property, and resemble the disputed property in age, floor plan, number of rooms, and other relevant characteristics.

2. Assessors in each county of this state and the City of St. Louis may send personal property assessment forms through the mail.

3. The following items of personal property shall each constitute separate subclasses of tangible personal property and shall be assessed and valued for the purposes of taxation at the following percentages of their true value in money:

- (1) Grain and other agricultural crops in an unmanufactured condition, one-half of one percent;
- (2) Livestock, twelve percent;
- (3) Farm machinery, twelve percent;
- (4) Motor vehicles which are eligible for registration as and are registered as historic motor vehicles pursuant to section 301.131 and aircraft which are at least twenty-five years old and which

(5) Poultry, twelve percent; and

(6) Tools and equipment used for pollution control and tools and equipment used in retooling for the purpose of introducing new product lines or used for making improvements to existing products by any company which is located in a state enterprise zone and which is identified by any standard industrial classification number cited in subdivision (7) of section 135.200, twenty-five percent.

4. The person listing the property shall enter a true and correct statement of the property, in a printed blank prepared for that purpose. The statement, after being filled out, shall be signed and either affirmed or sworn to as provided in section 137.155. The list shall then be delivered to the assessor.

5. (1) All subclasses of real property, as such subclasses are established in Section 4(b) of Article X of the Missouri Constitution and defined in section 137.016, shall be assessed at the following percentages of true value:

(a) For real property in subclass (1), nineteen percent;

(b) For real property in subclass (2), twelve percent; and

(c) For real property in subclass (3), thirty-two percent.

(2) A taxpayer may apply to the county assessor, or, if not located within a county, then the assessor of such city, for the reclassification of such taxpayer's real property if the use or purpose of such real property is changed after such property is assessed under the provisions of this chapter. If the assessor determines that such property shall be reclassified, he or she shall determine the assessment under this subsection based on the percentage of the tax year that such property was classified in each subclassification.

6. Manufactured homes, as defined in section 700.010, which are actually used as dwelling units shall be assessed at the same percentage of true value as residential real property for the purpose of taxation. The percentage of assessment of true value for such manufactured homes shall be the same as for residential real property. If the county collector cannot identify or find the manufactured home when attempting to attach the manufactured home for payment of taxes owed by the manufactured home owner, the county collector may request the county commission to have the manufactured home removed from the tax books, and such request shall be granted within thirty days after the request is made; however, the removal from the tax books does not remove the tax lien on the manufactured home if it is later identified or found. For purposes of this section, a manufactured home located in a manufactured home rental park, rental community or on real estate not owned by the manufactured home owner shall be considered personal property. For purposes of this section, a manufactured home located on real estate owned by the manufactured home owner may be considered real property.

7. Each manufactured home assessed shall be considered a parcel for the purpose of reimbursement pursuant to section 137.750, unless the manufactured home is deemed to be real estate as defined in subsection 7 of section 442.015 and assessed as a realty improvement to the existing real estate parcel.

8. Any amount of tax due and owing based on the assessment of a manufactured home shall be included on the personal property tax statement of the manufactured home owner unless the manufactured home is deemed to be real estate as defined in subsection 7 of section 442.015, in which case the amount of tax due and owing on the assessment of the manufactured home as a realty improvement to the existing real estate parcel shall be included on the real property tax statement of the real estate owner.

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.

Matter in bold-face type is proposed language.

9. The assessor of each county and each city not within a county shall use ~~the trade-in value published in the October issue of~~ **a nationally recognized automotive trade publication such as the National Automobile Dealers' Association Official Used Car Guide, [or its successor publication.] Kelley Blue Book, Edmunds, or other similar publication** as the recommended guide of information for determining the true value of motor vehicles described in such publication. **The state tax commission shall select and make available to all assessors which publication shall be used. The assessor of each county and each city not within a county shall use the trade-in value published in the current October issue of the publication selected by the state tax commission.** The assessor shall not use a value that is greater than the average trade-in value in determining the true value of the motor vehicle without performing a physical inspection of the motor vehicle. For vehicles two years old or newer from a vehicle's model year, the assessor may use a value other than average without performing a physical inspection of the motor vehicle. In the absence of a listing for a particular motor vehicle in such publication, the assessor shall use such information or publications ~~which~~ **that**, in the assessor's judgment, will fairly estimate the true value in money of the motor vehicle. **For motor vehicles with a true value of less than fifty thousand dollars as of January 1, 2025, the assessor shall not assess such motor vehicle for an amount greater than such motor vehicle was assessed in the previous year, provided that such motor vehicle was properly assessed in the previous year.**

10. Before the assessor may increase the assessed valuation of any parcel of subclass (1) real property by more than fifteen percent since the last assessment, excluding increases due to new construction or improvements, the assessor shall conduct a physical inspection of such property.

11. If a physical inspection is required, pursuant to subsection 10 of this section, the assessor shall notify the property owner of that fact in writing and shall provide the owner clear written notice of the owner's rights relating to the physical inspection. If a physical inspection is required, the property owner may request that an interior inspection be performed during the physical inspection. The owner shall have no less than thirty days to notify the assessor of a request for an interior physical inspection.

12. A physical inspection, as required by subsection 10 of this section, shall include, but not be limited to, an on-site personal observation and review of all exterior portions of the land and any buildings and improvements to which the inspector has or may reasonably and lawfully gain external access, and shall include an observation and review of the interior of any buildings or improvements on the property upon the timely request of the owner pursuant to subsection 11 of this section. Mere observation of the property via a drive-by inspection or the like shall not be considered sufficient to constitute a physical inspection as required by this section.

13. A county or city collector may accept credit cards as proper form of payment of outstanding property tax or license due. No county or city collector may charge surcharge for payment by credit card which exceeds the fee or surcharge charged by the credit card bank, processor, or issuer for its service. A county or city collector may accept payment by electronic transfers of funds in payment of any tax or license and charge the person making such payment a fee equal to the fee charged the county by the bank, processor, or issuer of such electronic payment.

14. Any county or city not within a county in this state may, by an affirmative vote of the governing body of such county, opt out of the provisions of this section and sections 137.073, 138.060, and 138.100 as enacted by house bill no. 1150 of the ninety-first general assembly, second regular session and section 137.073 as modified by house committee substitute for senate substitute for senate committee substitute for senate bill no. 960, ninety-second general assembly, second regular session, for the next year of the general reassessment, prior to January first of any year. A governing body of a city not within a county or a county that has opted out under the provisions of this subsection may choose to implement the provisions of this section and sections 137.073, 138.060, and 138.100 as enacted by house bill no. 1150 of the ninety-first general assembly, second regular session, and section 137.073 as modified by house committee substitute for senate substitute for senate committee substitute for senate bill no. 960, ninety-second general assembly, second regular session, for the next year of general reassessment, by an affirmative vote of the governing body prior to December thirty-first of any year.

Such separate and differing rates shall not exceed such city's tax rate ceiling.

16. Any portion of real property that is available as reserve for strip, surface, or coal mining for minerals for purposes of excavation for future use or sale to others that has not been bonded and permitted under chapter 444 shall be assessed based upon how the real property is currently being used. Any information provided to a county assessor, state tax commission, state agency, or political subdivision responsible for the administration of tax policies shall, in the performance of its duties, make available all books, records, and information requested, except such books, records, and information as are by law declared confidential in nature, including individually identifiable information regarding a specific taxpayer or taxpayer's mine property. For purposes of this subsection, "mine property" shall mean all real property that is in use or readily available as a reserve for strip, surface, or coal mining for minerals for purposes of excavation for current or future use or sale to others that has been bonded and permitted under chapter 444.
